

# Recommendation Report

## Executive Summary

```
{  "title": "Top Preferred Supplier Performance for the Current Project",  "summary": "This report provides an overview of the top preferred suppliers' performance based on their ratings, average delivery days, and the number of preferred products supplied for the current Safety Tech Upgrade project.",  "recommendations": [    "Consider negotiating longer term agreements with high-performing preferred suppliers such as Apex Auto Components to secure better pricing and reduce supply chain risks.",    "Evaluate potential new suppliers for the upcoming projects based on their performance metrics, as well as their ability to deliver on time and meet project requirements.",    "Monitor supplier performance closely during peak production periods to ensure that delivery deadlines are met without sacrificing quality."  ],  "chart": {    "type": "bar",    "labels": [      "2025-09",      "2025-09",      "2025-09",      "2025-08",      "2025-08",      "2025-08",      "2025-08",      "2025-07",      "2025-07",      "2025-07",      "2025-07",      "2025-06"    ],    "values": [      3591.0,      6783.0,      6104.0,      10086.0,      12200.0,      17171.0,      15000.0,      8183.0,      10000.0,      11418.0,      8710.0,      4975.0    ]  }}
```

## Recommendations

1. Consider negotiating longer term agreements with high-performing preferred suppliers such as Apex Auto Components to secure better pricing and reduce supply chain risks.
2. Evaluate potential new suppliers for the upcoming projects based on their performance metrics, as well as their ability to deliver on time and meet project requirements.
3. Monitor supplier performance closely during peak production periods to ensure that delivery deadlines are met without sacrificing quality.
